## Company Profile

---

**Ownership Structure:  
Partnership with Foreign Enterprises**

**Legal Status: JV Partnership**

**Business Nature: Foreign Investment  
Facilitation and Project Development**

GCG is a strategic partnership formed with the objective of promoting and facilitating direct foreign investment (FDI) in Bangladesh. The company serves as a professional platform that connects international investors with high-value opportunities across multiple sectors, power, energy including petroleum oil & gas / natural gas processing plant, refinery and storage, renewable energy, river and ocean management, water and land port, military and aviation, all kinds of mineral resources exploration, drilling, mining and production, infrastructure development in civil, commercial and industrial, manufacturing, real estate development and etc.

Through its extensive network of global partners and local expertise, GCG aims to create sustainable, long-term economic growth by fostering industrial development and infrastructure transformation in alignment with Bangladesh's national development plan.

## Mission

To attract, structure, and manage direct foreign investments into priority economic sectors of Bangladesh.

To develop and execute commercially viable, socially responsible, and environmentally sustainable projects.

To collaborate with government agencies, financial institutions, and private investors for integrated national development.

To enhance employment generation and technological advancement through responsible investment and local capacity building.

## Vision

To establish GCG as a leading investment facilitation and project development entity in Bangladesh, enabling large-scale industrial and infrastructure growth through transparent, sustainable, and globally competitive partnerships.

## Values

Innovation, Service, Cooperation, and Win-Win

GCG is based in the Bangladesh market and actively expands its business globally. Currently, We have conducted related businesses in countries such as the Middle East, Africa, China and United States.
